

ITTO Children Environmental Education Programme on Tropical Forests (CEEP)

Wed., 25 August 2010 18:30-20:30

Hall E2, 3F, COEX Convention Center, Seoul, Korea

In light of the need to enhance awareness of the important role of tropical forests in addressing climate change and biodiversity loss, imparting knowledge to children is essential.

This Side Event will provide an overview of the ITTO CEEP and lessons learned from other relevant programmes contributing to the implementation of innovative programmes on children environmental education.

Programme
