

Private Funds to Manage Tropical Forest in THAILAND

Scope

- Phoenix Company Profile 
- Limitation 
- Plantation Promotion 
- CO2 fixation by Forest Plantation 
- Suggestions 

Limitation for Private Funds to Manage Tropical Forest in THAILAND

- National Forest was not allowed to be managed by private entities
- National Forest managed by Royal Forestry Department or Forest Industry Organization
- Forest Plantation allowed in Private Land for Economic Forest

SCG
SIAM CEMENT GROUP
PAPER

Plantation Promotion

Plantation in Contract Framing by

- Purchasing land
- Renting land
- Partnership

Policy

“Sustainable Forest Plantation with
Natural Conservation and
Environmental Preservation”

Complete Service

- Tissue culture for better breed
- Sprout produce and distribution
- Technical knowledge sharing
- Recommended cutting and transportation party

Investment

- Tissue culture development - 10 M฿/Y
- Phoenix's own plantation for Model - 10 M฿/Y
- Sprout produce and distribution – 10 M฿/Y
- Promotion activities - 10 M฿/Y

SCG Paper CO2 Fixation by Forests 2002-2006

Suggestions

- If forest lands could be managed:
 - Cost saving >40% due to Economies of Scale
 - Risk free for contract farmer selling logs to other parties or change to other crops
 - Could limit land only for production - requirement about 500,000 rai or 200,000 acres
- Future work towards FSC certification for Sustainable Forest Management and Chain of Custody

Thank You
