

# Putting a brake on wildfires

Photo: L. Capelli

Since the 1980s, ITTO has supported its producer member countries in wildfire monitoring, assessments, post-fire rehabilitation measures, community involvement in integrated fire management, and policy development, notably through the ITTO Guidelines on Fire Management in Tropical Forests.

The Organization is continuing to fund projects aimed at improving fire management in member countries, while actively participating in dialogues with governments and other organizations related to forest fire management worldwide.
