established under Decision 1 (LI.1)**

Yokohama, 12 -14 October 2016

Summary

The Expert Panel met as planned 12-14 October in Yokohama to consider the draft report and draft policies and manuals prepared by two consultants and with the active support of the consultants and the Secretariat, it completed the mandate given to it by the Council in Decision 1(LI.1).

The Panel prepared proposals for comprehensive revisions to the Financial Rules and Rules Related to Projects as well as revisions to the Staff Regulations and Rules that specifically address problems identified by the Oversight Committee. As part of the effort to strengthen ITTO's financial and investment governance framework, the Panel also prepared proposals for an Auditing Standard, an Investment Policy and a Charter for an Investment Oversight Panel.

In addition, three financial procedure manuals were prepared which are proposed to provide detailed guidance on all aspects of financial management, governance and risk management.

The Panel also prepared draft Council decisions supporting the adoption of these revised rules (**Appendix 1**).

In the course of its work, the Panel identified a number of concerns that could not be addressed through proposed revisions to the regulations and rules. The Panel noted, for example, that the Executive Director is not subject to the Staff Regulations and Rules resulting in the absence of an effective transparent mechanism for holding the Executive Director accountable for actions inconsistent with Council expectations. To address these impediments, the Panel discussed and prepared for consideration a set of draft Standards of Conduct for the Executive Director (**Appendix 2**).

The Panel also noted the need to strengthen the role of the CFA, as well as the Informal Advisory Group (IAG), in providing oversight and governance of the Organization. In consideration of these requirements, the Panel reviewed and proposed changes in the terms of reference for both the CFA and IAG (**Appendix 3**).

In conclusion, the Panel noted the lessons learned regarding the importance of effective participation on the part of all members who serve as officers of the Council and committees. As examples, the Panel noted the role of Council officers in implementing the ITTO Whistleblower Policy, the role of CFA in reviewing the Organization's financial statements and books and records and the contribution that the proposed Investment Oversight Panel would make to strengthening the investment governance framework.

The Panel recommended that the Council consider ways to ensure all members can effectively serve on Council bodies, including by covering, as necessary, the expenses of members serving as officers of the Organization, or members of panels.

Introduction

The Expert Panel met pursuant to Council Decision 1 (LI.1) which, recognizing that ITTO was faced with substantial financial losses as a consequence of actions taken in violation of financial rules and Council guidance, noting "the urgent need for corrective and preventive measures to strengthen the internal governance of ITTO and to renew member, donor and public confidence in ITTO." Council Decision 1 (LI.1) and its annex set out the detailed terms of reference for the Panel's work.

Members of the Panel were: Ms. S. McFadden O'Neill (USA), Ms K. Takabatake (Japan), Ms. J. Hanna (EU), Ms E. Binti Malek (Malaysia) and Dr A. Velazquez Martinez (Mexico). ¹ The Panel benefitted from and based its work on a report prepared by two consultants, Dr. D. Brooks and Mr. D. Dunstan.

¹ An additional Panel member from Cameroon was unable to attend.

Background

In 2012 and again in 2013, on the advice of a long-standing financial adviser, ITTO made investments which subsequently failed, leading to the loss of more than US\$18 million. After an investigation by an international accounting firm and a comprehensive review by a Council-appointed Oversight Committee, it was found that these investments were highly speculative and were made in contravention of ITTO's financial rules and the guidance provided by the CFA. These investigations revealed further that these losses had escaped the attention of both the CFA and the Council. These investigations identified gaps or weaknesses in:

- policies and procedures controlling ITTO investment processes;
- internal controls surrounding the approval and disbursement of ITTO funds;
- the effectiveness of financial statements audits in highlighting critical events impacting on the Organizations financial health and wellbeing and difficulties experienced by the CFA and Council in interpreting the financial statements and the audit reports resulting in sub optimal governance outcomes;
- ITTO's Financial Rules and Staff Regulations; and
- ITTO's Whistle-blower policy

Decision 1(LI.1) requested that the Panel address these concerns, aided by work to be done by consultants. In addition, other areas of concern identified by the Oversight Committee were brought to the Panel's attention, including: the absence of transparency regarding the status of members' payment of assessed contributions; the fact that details of the approved budget are not publicly available and the absence of any effective mechanism which could be used to recover some of the impaired investments.

Outputs

Revisions of Staff Regulations and Rules

As a precursor to the revision of the Staff Regulations and Rule, the Panel was reminded by the Secretariat that, while the recent experience highlighted an immediate need to revise the regulations and rules, there is also a plan to bring ITTO's Staff Regulations and Rules in line with the emerging revisions to staff rules for the United Nations system. The Panel was encouraged to focus on revisions that would specifically address gaps identified by the Oversight Committee, recognizing that other concerns would be addressed by further revisions to the regulations and rules.

The revisions proposed by the Panel are marked as tracked changes in document CFA(XXXI)... The most important of these are:

- Higher standards of conduct (Regulations 1.6 and 1.12);
- Strengthened provisions on conflicts of interest (Rule 103);
- A prohibition on the use of private email for official business (Rule 105);
- Provision for ITTO's contributions to the Provident Fund to return to the Organisation in cases of summary dismissal (rule 501);
- Clear definitions of gross negligence and serious misconduct that could lead to dismissal, as well as a clarification of disciplinary procedures and termination rules and (Regulations 7.1, 8.1 and Rules 803 to 805);
- New provisions on performance evaluation (Rule 906); and
- Incorporation of the whistle-blower policy (previously adopted by Council in 2013) and adding stronger protection for whistle-blowers (Regulation 8.1(c), Rule 906 and the annexed policy).

In the course of its work the Panel identified a number of concerns that could not be addressed in revisions to the Staff Regulations and Rules. The Panel noted, for example, that the Executive Director is not subject to the Staff Regulations and Rules and is therefore, as noted above, not subject to effective Council oversight.

In this context the Panel discussed the necessary elements of standards of conduct for the Executive Director, based on examples from other organizations, including contracts for executive heads of other

organizations and UN manager compacts. The Panel noted that the prospective appointment of a new Executive Director provides an opportunity to append such standards of conduct to the letter of appointment. The Panel's proposed draft for these standards is contained in **Appendix 2** of this report.

Financial Rules and Rules Related to Projects

The Panel began by agreeing with the recommendation of the consultants that the task of strengthening ITTO's financial governance required a comprehensive revision of the Financial Rules, including the addition of explicit and detailed policies addressing investment and audit, as well as the preparation of manuals describing all aspect of financial procedure. The Panel were cognisant of the mandate from the Council to streamline the rules and, as necessary, incorporate relevant Council decisions. The Panel agreed to work on the basis of a revised and restructured set of financial rules to which the other documents would be appended.

The Panel's proposal for revised financial rules is contained in document CFA(XXXI)/.. Because the Panel undertook to significantly streamline and restructure the current rules, it was not feasible to present the changes as tracked edits. In addition to the incorporation of the policies and manuals as annexes 2-7, notable changes to the current financial rules include:

- The accounts (chapters III-V) have been simplified and their rules clarified; unnecessary repetition has been eliminated;
- Three accounts and two reserves described Council decisions regarding management of these accounts have been added;
- Rules describing control and audit of all accounts have been organized in a new chapter (VI);
- Specific references have been added to rules to require adherence to the policies and procedures contained in the annexes;
- Rules on the adoption of International Public Sector Accounting Standards (IPSAS) have been added (rule 14);
- Rules describing audits have been added (rules 19 and 20);
- A chapter with explicit rules regarding investments (chapter VII, rule 21) have been added.

The Panel worked diligently to implement the Council's request to streamline Financial Rules; the proposed rules are restructured and now address one rule on each financial topic, in a new chapter, rather than repetitive rules in chapters describing each account.

The Working Capital Account is properly described as a reserve of the Administrative Account and Council guidance on its management has been added.

In the context of streamlining the accounts, the Panel considered whether the Executing Agencies Account (EAA), established by a Council decision, should be incorporated in the revised rules. The Panel agreed that the EAA is no longer required and the functions served by the EAA could be addressed by revisions to the rule guiding administration of the Special Account (rule 8). The Panel noted that adoption of the revised rules would, in effect, repeal the decision to establish the EAA.

In order to increase transparency, the Panel added new provisions to the rules to require:

- Budgets shall be adopted by Council decision (rule 3.3);
- The Executive Director shall distribute information on arrears to all members (rule 4.5); and
- The Secretariat shall provide information on disbursement of funds to donors and post reports for all projects on the Organization's website (rule 25).

While all Panel members supported circulation of information on arrears to all ITTO members, the Panel could not agree on a proposal to make the information on arrears publicly available on the website.

As an element of strengthened financial governance, the Panel recommended establishing an Investment Oversight Panel and agreed on a proposed charter (terms of reference) for its operation

(annex 5 of the revised rules). While noting the important contribution of the IOP, the Panel also noted that implementing the IOP will present some challenges. The Panel recommended that the Council establish the IOP as soon as possible and review its effectiveness on an annual basis.

Other Proposals

In addition to the work to revise the Organization's rules, the Panel recognized the need to generally strengthen governance of ITTO through improved functioning of formal bodies, such as the committees, especially the Committee on Finance and Administration (CFA), and informal bodies, such as the Informal Advisory Group (IAG). Therefore, the Panel reviewed and proposed changes in the terms of reference for both the CFA and IAG (**appendix 3**). For the IAG, the proposed changes are intended to strengthen the IAG's role in providing oversight and governance between Council sessions. For the CFA, the proposed changes are intended to clarify the CFA's role in the financial governance structure of the Organization, including the CFA's relationship to the (proposed) Investment Oversight Panel.

The Panel noted that one lesson learned from recent experience was the critical importance of effective participation of members who serve as officers of the Council and committees. In the future, this participation will be even more important. The Panel noted the role of the CFA and IOP in strengthening the investment governance framework, and the role of Council officers in implementing the ITTO Whistleblower Policy. The Panel recommended that the Council consider ways to ensure all members can serve more effectively and cohesively by, for instance, assisting with travel costs.

Finally, the Panel discussed the fact that a number of the proposals to strengthen financial governance would inevitably require additional expenditures. As an example, the Panel noted that the increased scope for audits would make them more expensive, perhaps significantly so, as compared to current practice. The Panel also noted that the operation of the Investment Oversight Panel would require funding in order to be effective as would the migration to IPSAS. The Panel concluded that these additional costs should be drawn to the Council's attention.

STAFF REGULATIONS AND RULES OF THE INTERNATIONAL TROPICAL TIMBER ORGANIZATION

SCOPE AND PURPOSE

The Staff Regulations embody the fundamental conditions of service and the basic rights, duties and obligations of the staff of the International Tropical Timber Organization. They represent the broad principles of personnel policy for the staffing and administration of the Organization as approved by the Council. The Executive Director, as the Chief Administrative Officer, shall provide and enforce such Staff Rules consistent with these principles as he considers necessary.

The Staff Regulations do not apply to temporary engaged experts, consultants and auxiliary personnel.

1. DUTIES AND RESPONSIBILITIES

Regulation 1.1

Staff members are international civil servants. Their responsibilities are not national but exclusively international. By accepting appointment, they pledge themselves to discharge their functions and to regulate their conduct with the interest of the Organization only in view.

Regulation 1.2

In the performance of their duties staff members shall neither seek nor accept instructions from any government or from any other authority external to the Organization.

Regulation 1.3

Staff members shall exercise the utmost discretion in regard to all matters of official business. They shall not communicate to any person any information known to them by reason of their official position which has not been made public, except in the course of their duties or by authorization of the Executive Director. Nor shall they at any time use such information to private advantage. These obligations do not cease upon separation from the Organization.

Regulation 1.4

Staff members are subject to the authority of the Executive Director and to assignment by him to any of the activities or offices of the Organization. They are responsible to him in the exercise of their functions. The whole time of staff members shall be at the disposal of the Executive Director. The Executive Director shall establish a normal working week.

Regulation 1.5

Staff members shall conduct themselves at all times in a manner befitting their status as international civil servants. They shall not engage in any activity that is incompatible with the proper discharge of their duties with the Organization. They shall avoid any action, and in particular any kind of public pronouncement, which may adversely reflect on their status, or on the integrity, independence and impartiality which are required by that status.

Regulation 1.6

The status, privileges and immunities attached to the Organization by virtue of its Headquarters Agreement with the Government of Japan are conferred to enable the Organization fully and

efficiently to discharge its responsibilities and fulfill its purpose and functions. ~~These privileges and immunities furnish no excuse to the staff who enjoy them for non performance of their private obligations or failure to observe laws and police regulations.~~ **The privileges and immunities that international civil servants enjoy are conferred upon them solely in the interests of the Organization. They do not exempt international civil servants from observing local laws, nor do they provide an excuse for ignoring private legal or financial obligations.** In any case where questions of privileges and immunities arise, the staff member shall immediately report to the Executive Director, who alone shall decide whether they shall be waived.

The Council shall decide whether the privileges and immunities shall be waived in the case of the Executive Director.

Regulation 1.7

Staff members shall give neither advice nor assistance to any government or person or authority in relation to tropical timber or other commodities except as is necessary for the proper discharge of their duties.

Regulation 1.8

Staff members shall not have any financial interest in the tropical timber industry trade, transportation, publicity or associated commercial activities, including dealings related to tropical timber or other commodities. While employed by the Organization, the staff member shall not acquire or hold any such interest. Staff members shall not engage in any occupation or activity, including political activities, or hold any office or position which is incompatible with the proper discharge of their duties with the Organization, or which might prove a source of embarrassment to the Organization.

Regulation 1.9

No staff member shall accept any honour, decoration, favour, gift or remuneration from any source external to the Organization, in connection with his/her duties in the Organization, without first obtaining the approval of the Executive Director. Approval shall be granted only in exceptional cases and where such acceptance is not incompatible with the terms of Regulation 1.4 of the Staff Regulations and with the individual's status as an international civil servant.

Regulation 1.10

Staff members may exercise the right to vote but shall not engage in any political activity which is inconsistent with, or might reflect upon, the independence and impartiality required by their status as international civil servants or which prove a source of embarrassment to the Organization.

Regulation 1.11

1. DELEGATIONS AT ITTO

Delegations are attached to the position and not to the officer designated to it. Assignment of delegations can be transferred if an officer is acting in a higher position.

The Executive Director of ITTO may assign his/her delegations to a nominated officer during his/her absence. The acting officer will then have the same delegations as the Executive Director as those prescribed in this manual. This interpretation is applicable to other positions that have delegations attached to them.

Subject to the general supervision of the Council, the Executive Director shall have full power and authority to direct the work of the Organization including right to establish appropriate delegations of authority.

1.6 Segregation of Duties

ITTO should attempt to establish and maintain an effective internal control framework at all times in which officers will not be granted both the approval authority and the payment authority. There is also a need to ensure that recommendation authority is independent from the authorities noted above.

Furthermore, it is essential that the staff members who are involved in procurement activity do not have the approval and payment authority.

1.7 Responsibility

The Executive Director shall ensure that there is a written instrument of financial delegations in place, which is kept up-to-date at all times.

Furthermore, it is the responsibility of all the senior staff at ITTO who have delegated authority to ensure that personnel under their control comply with the approved financial delegations.

1. INVESTMENT POLICY

1.1 BACKGROUND

The authority to invest funds is provided pursuant to Articles 7 and 18 of the International Tropical Timber Agreement 2006 (ITTA 2006), under the ITTO Financial Rules and Rules Related to Projects and by decisions of Council.

1.2 INTENT

The intent of this document is to describe ITTO's investment policy and guidelines regarding the investment of funds, with the objective to maximize earnings within approved risk guidelines and to ensure the security of funds.

The activities of the investment officers or fund managers responsible for stewardship of ITTO's funds will be measured against the standards and objectives in this Policy.

Activities that defy the spirit and intent of the Policy will be deemed contrary to the Policy.

1.3 SCOPE

For the purpose of this Policy, investments are defined as arrangements that are undertaken or acquired with the expectation of achieving a financial return through interest, profit or capital growth. This Policy applies to the investment of funds held by ITTO and undertaken in accordance with the ITTO Financial Rules.

Investments are to be made in a capital guaranteed cash fund or an approved cash management product.

2. POLICY STATEMENT

2.1 AUTHORITY

All investments are to be made in accordance with this policy.

2.2 ETHICS AND CONFLICTS OF INTEREST

2.2.1 Prudent Person Standard

The standard of prudence is to be used by ITTO investment officers when managing the overall portfolio. Investments will be managed with the care, diligence and skill that a prudent person would exercise in managing the affairs of other persons. This includes having in place appropriate reporting requirements that ensure the investments are being reviewed and overseen regularly.

ITTO Investment officers are to manage the investment portfolios not for speculation, but for investment in accordance with the intent of this Policy. They are to avoid any transaction that might harm confidence in or the reputation of ITTO. They MUST consider the safety of capital and income objectives when making an investment decision.

2.2.2 Ethics and conflicts of interest

ITTO Investment officers shall refrain from personal activities that would conflict with the proper execution and management of ITTO's investment portfolio. This includes activities that would impair the investment officer's ability to make impartial decisions.

Employees responsible for making investment decisions are required to disclose to the Executive Director any conflict of interest or any investment positions that could be related to ITTO's investment portfolio.

Actions inconsistent with this policy are a violation of ITTO Financial Rules or ITTO Staff Regulations and Rules. As described in ITTO's Whistleblower policy, it is the duty of staff members to report any breach of ITTO Regulations and Rules.

2.2.3 Delegation of authority

The Executive Director is responsible for overseeing implementation of the Investment Policy. Authority for the day-to-day management of the Council's investment portfolio may be delegated by the Executive Director to the Assistant Director for Operations (or other senior officials of the organization).

2.3 INVESTMENT OBJECTIVES

ITTO's overall objective is to invest its funds at the most advantageous rate of interest available to it at the time, for that investment type, and in a way that it considers most appropriate given the circumstances.

In priority order, the investment objectives shall be preservation of capital, liquidity, and return on investment.

2.3.1 Preservation of capital

Preservation of capital shall be the principal objective of the investment portfolio. Investments are to be managed in a manner that seeks to ensure security of principal of the overall portfolio. This includes managing credit and interest rate risk within given risk management parameters and avoiding any transactions that would prejudice confidence in ITTO or its associated entities or affiliates.

Credit Risk

ITTO will evaluate and assess credit risk prior to making any form of investment. Credit risk is the risk of loss due to the failure of an investment issuer or guarantor. The investment officer will minimize credit risk in the investment portfolio by pre-qualifying all transactions including the brokers/securities dealers with which they do business, diversify the portfolio and limit transactions to secure investments.

Interest Rate Risk

The investment officers shall seek to minimize the risk of a change in the market value of the portfolio because of a change in interest rates. This would be achieved by considering the cash flow requirements of ITTO and structuring the portfolio accordingly. This will avoid having to sell securities prior to maturity in the open market thus reducing optimal return. Secondly, interest rate risk can be limited by investing in shorter term securities.

2.3.2 Maintenance of liquidity

Pursuant to ITTO Financial Rules, ITTO maintains accounts with banks for its day-to-day operating transactions.

In addition to the balances held in its operational bank accounts for routine operating requirements, the investment portfolio will maintain sufficient liquidity to meet all reasonably anticipated operating cash flow requirements of ITTO, as and when they fall due, without incurring significant transaction costs occasioned by prompt sale of an investment.

For these purposes, *illiquid investments* are defined as investments that are not publicly traded in sufficient volume to facilitate, under most market conditions, prompt sale without severe market price effect.

Examples of *illiquid investments* include:

- investment in private placements;
- a security that is not supported or priced by at least two approved brokers/securities dealers;
- sub investment grade (i.e. a lower than rating BBB- (Standard and Poor's) or equivalent), and in most cases, BBB rated investments; and
- unrated securities.

2.3.3 Return on investments

The ITTO investment portfolio is expected to achieve a market average rate of return taking into account ITTO's risk tolerance and current interest rates, budget considerations, and the economic cycle. Any additional return target may be set by the Council will also consider the risk limitations, prudent investment principles and cash flow characteristics identified within the Policy.

2.3.4 Comparison of Performance

In making investments, the Executive Director should ensure ITTO achieves value-for-money or a competitive price after considering the costs of the investment.

In comparing performance, the portfolio will be market valued and take into account all coupons, deposits and withdrawals to/from the portfolio.

2.4 PORTFOLIO ESTABLISHMENT & OVERSIGHT

2.4.1 Authorized personnel

The Executive Director is authorized to invest ITTO's funds in investments consistent with this Policy. As provided for in section 2.2.3, the Executive Director may delegate this authority.

The Executive Director will provide quarterly reports on investments to the Council through the Committee on Finance and Administration (CFA) and its Investment Oversight Panel.

2.4.2 Investment Oversight Panel

To ensure effective oversight, an Investment Oversight Panel (IOP) is established. The IOP shall include the Executive Director, and two (2) members to be designated by the Council Chair and Vice-chair. The Investment Oversight Panel shall function as an advisory Panel to the CFA and Council.

Its purpose is to:

- oversee the development and update of this Policy and its guidelines;
- make recommendations to the Council regarding modifications to this Policy;
- monitor compliance with ITTO Financial Rules and related Council Decisions) and;
- review ITTO's periodic investment reports to the CFA and Council.

An officer independent to the execution of investment transactions will provide compliance and investment analysis to the Investment Oversight Panel (Assistant Director, Operations).

The Investment Oversight Panel is proscribed from direct investment decisions, selecting fund managers, or becoming involved in the routine operations of the portfolio.

The role of the IOP is to review and ensure that procedures and processes are at all times adequate and to refer investment decisions to the CFA and Council, if required.

2.4.3 Internal controls

The Executive Director of ITTO shall establish internal controls and processes that will ensure investment objectives are met and that the investment portfolios are protected from loss, theft or inappropriate use. To this end, the Executive Director shall establish an executive management group or review group.

The Investment Oversight Panel is responsible for reviewing the approved lists and investment guidelines, which are updated regularly and recorded at ***Appendix 1***. The guidelines set by the Panel may, if required, be more conservative than the Policy. However, in no instance will they override this Policy or its objectives.

The established processes will include appropriate reporting (including compliance reporting), as well as an annual review of the Policy. The internal controls will address the following:

- control of collusion;
- measures to avoid conflict of interest;
- separate the transaction authority from accounting and record keeping;
- safekeeping;
- avoid physical delivery of securities;
- clearly delegate authority to ITTO investment officers;
- confirmation requirements for settlement of securities;
- compliance and oversight of investment parameters; and
- reporting of breaches.

The Investment Oversight Panel shall conduct an annual review of the activities of the portfolio to verify compliance with this Policy.

2.5 INVESTMENT PARAMETERS

2.5.1 Investible funds

For the purposes of this Policy, investible funds are the investment moneys available for investment at any one time and include the ITTO's bank account balance. Included in this balance are any moneys held by the ITTO on behalf of external parties. However, this Policy does not apply to moneys held in trust for third parties where those funds are subject to specific conditions.

The investible funds should match the cash flow needs of ITTO deemed by the Executive Director after preparing ITTO's budget. Once the Executive Director has determined that the cash flow requirements can be met, funds may be invested for the required term. In this regard, it is appropriate for the Executive Director to be conservative (i.e. where possible, investments should not be broken to meet cash flow obligations).

It is the responsibility of the Executive Director to assess the cost of direct investment management by ITTO relative to the return generated. This should be compared with the cost

of investing funds with a reliable capital guaranteed cash fund.

Any such investment decisions are to be undertaken with the concurrence of the IOP.

2.5.2 Authorized investments

Investment may include:

- interest bearing deposits
- commercial paper
- bank accepted/endorsed bank bills
- bank negotiable certificates of deposit
- short term bonds
- floating rate notes

2.5.3 Prohibited investments

This Policy prohibits any investment carried out for speculative purposes. The Investment Oversight Panel may include a prohibited investments list within the investment guidelines and approved lists (established pursuant to section 2.4.3 of this Policy).

The following investments are prohibited by this investment policy:

- derivative based instruments (excluding floating rate notes);
- securitized debt instruments;
- structured products;
- principal only investments or securities that provide potentially nil or negative cash flow;
- standalone securities issued that have underlying futures, options, forward contracts and swaps of any kind;

2.5.4 Portfolio investment parameters and credit requirements

The following table shows the credit ratings and counterparty limits for ITTO:

<i>Short Term Rating (Standard & Poor's) or equivalent</i>	<i>Individual Counterparty Limit</i>	<i>Total Limit</i>
A1+	30%	100%
A1	15%	50%
A2 (Financial Institutions only)	10%	30%
A3 (Financial Institutions only)	5%	10%
Unrated	Nil	Nil

It is noted that for the purposes of this investment portfolio, the percentage limits apply effective from the date of purchase as a percentage of the market value of the portfolio.

Appendix 2 * **Attached*** provides a comprehensive definition of rating definitions for Standard & Poor's, Moody's & Fitch.

2.5.5 Maturity

The maturity structure of the portfolio will reflect a maximum term to maturity of one year and includes an interest rate reset of no longer than six months (185 days).

2.5.6 Liquidity requirement

Given the nature of the funds invested, no more than 20 per cent of the investment portfolio will be held in illiquid securities and at least 10 per cent of the portfolio can be called at no cost or will mature within 0-7 days.

2.5.7 Approved lists

The Investment Oversight Panel shall prepare and maintain the following approved counterparty lists for the investment of funds:

- approved banks;
- approved commercial paper and medium term note issuers;
- approved brokers/dealer and direct issuers for purchase or sale of security with a minimum Standard and Poor's long-term credit rating of A+ (or equivalent); New investment products as they emerge;

A new investment product requires a full risk assessment by management and requires approval by the ITTC.

2.5.8 Breaches

Any breach of this Investment Policy is to be reported to the Executive Director or the Assistant Director for Operations and rectified within 24 hours of the breach occurring. The Investment Oversight Panel will report any such breach to the Council at its next meeting.

The Assistant Director for Operations will investigate the nature and import of the breach and will, if the breach is serious and amounts to an alleged breach under ITTO Staff Regulations and Rules, seek to initiate disciplinary procedures against the staff member responsible for the transaction, in a transparent and equitable manner pursuant to those rules.

Where ITTO holds an investment that is downgraded below the minimum acceptable rating level, as prescribed under regulation for the investment arrangement, ITTO shall within 28 days after the change becomes known, either obtain Executive Director's approval for continuing with the investment arrangement or sell the investment arrangement (including, for example, withdrawing a deposit).

2.5.9 Safekeeping and custody

Each investment transaction will require written confirmation by the broker/dealer/bank. ITTO will hold security documents, or alternatively a third party custodian authorized by the Executive Director and evidenced by safekeeping receipts may hold security documents.

These security documents must be held in a secure manner and must at all times be available for inspection by all authorized parties including the independent external auditor.

2.5.10 Criteria for selection of authorized dealers and brokers

ITTO will maintain a list of authorized financial institutions and securities brokers that the ITTO investment officers may deal with. These financial intermediaries must have a minimum long term rating of at least either A+/A1/A+ from Standard and Poor's, Moody's or Fitch.

All transactions undertaken on behalf of the investment portfolio of ITTO will be executed either by ITTO directly, or through securities brokers registered as Japanese Financial Service Licensees (Japanese Financial Services Agency) with an established sales presence in Japan, or direct issuers that directly issue their own securities which are registered on ITTO's approved list of brokers/dealers and direct issuers.

The Investment Oversight Panel will implement a process to investigate and endorse new brokers, including a requirement for references/testimonials which will assist with the broker selection and then seek Council approval for these processes.

A comprehensive selection criterion for financial advisers and brokers will be implemented including:

- assessment, evaluation and selection using an independent and transparent competitive Bid & Tender Policy;
- credit ratings of the firm;
- market capitalization of their business entity to determine credit worthiness and business sustainability;
- capability to execute transactions verified by testimonials from reputable business clients;
- As a guide, a minimum credit rating of A+ (Standard & Poor's) should be expected of broker counterparties along with provision of annual audited financial statements and securities dealer certification;
- Brokers must be further required to certify that they have read the requirements of ITTA 2006, ITTO Financial Rules and this ITTO Investment Policy;
- ITTO will at all cost refrain from selecting and engaging brokers or financial advisers who are paid through inappropriate commission arrangements.

2.6 INVESTMENT GUIDELINES

Pursuant to section 2.4.3 of this Policy, the Investment Oversight Panel may reduce the maturity limits in this Policy to a shorter period, or prescribe higher ratings through their own internal investment guidelines and approved lists.

Council approval is required for investments with a period of greater than 12 months.

3. REPORTING

3.1 REPORTING

The Assistant Director for Operations will prepare a quarterly report and evaluation of the transactions, investment concentrations, performance and compliance of the investment portfolio. The report is to be provided to the Investment Oversight Panel within 10 days of the period end. The report will include:

- list of securities held at the end of the reporting period by maturity date/call date;
- weighted average yield to maturity of the portfolio;
- percentage of the portfolio held by investment type; and
- performance of the portfolio (relative to appropriate benchmarks and by review of monthly statements, press releases & related media articles).

On a quarterly basis, the Executive Director will provide the Investment Oversight Panel and the Council with a detailed report on the investment portfolio, including a statement of compliance with this Policy and ITTO Financial Rules. The report is to list securities by issue name, maturity date, par and monetary amount invested.

On an annual basis, the Investment Policy will be reviewed and amended where required. Any amendments are to be reviewed by the Investment Oversight Panel and CFA and approved by the Council prior to implementation.

3.2 PERFORMANCE MEASUREMENT

The investment return for the portfolio shall be measured using the market value of the portfolio, including withdrawals and deposits, and total performance of the portfolio compared to the independent expert and independent indices issued by the Bank of Japan.

The review will also monitor the performance of investments advisers during the reporting period.

This is to include changes in the capital value of assets held (where applicable), income from managed investment portfolio assets, proceeds of sales of assets sold and cost of assets acquired.

The market value of the portfolio is to be calculated quarterly.

In defining market value, at least two pricing sources should be included in the valuation of the securities.

1. PURPOSE AND USE OF THE MANUAL

1. Recognizing that the International Tropical Timber Organization (ITTO) needs to procure goods and services to support its activities at its Headquarters (HQ) and Regional Offices, this Manual provides guidance on procurement policies, procedures and practices to all staff members involved in the procurement and acquisition processes and activities in all such offices and locations.
2. This Manual is a compendium of regulations approved by the Council and the related rules and guidelines published for use by management and staff in performing the procurement function.
3. This Manual provides the legal framework to undertake procurement activities in full compliance with other relevant rules, policies, decisions and practice of the Organization.
4. Staff should rely on the Manual to guide their actions and to carry out their official duties.
5. Equally, these procedures in this Manual are designed to ensure that those seeking to do business with ITTO can be confident that their proposals are considered and assessed in a fair, objective and transparent manner.

2. ORGANIZATIONAL RESPONSIBILITIES

1. Procurement is the responsibility of the Division of Operations which employs staff who are responsible for the procurement function; this unit is headed by the Assistant Director of Operations.

All procurement is carried out under the provisions of International Tropical Timber Agreement 2006 and the ITTO Financial Rules and Rules Relating to Projects (Financial Rules).

The Financial Rules as approved by the Council regulate the Organization's procurement activities and the procurement of goods and/or services by the ITTO shall be undertaken at all times in compliance with these rules, regulations and policies.

2. This Procurement Manual reflects the principle of segregation of responsibilities between requisitioning and procurement entities by specifying their separate and distinct functions within the overall procurement process. At the same time, cooperation between the requisitioning and procurement functions is essential to ensure that, the basic principles expressed under Financial Rules are achieved namely:
 - a. ITTO obtains high quality goods, services and works that meet the applicable specifications;
 - b. Achieves competitive prices and within the time frame required;
 - c. That the procurement process is both equitable and transparent.

3. BEST VALUE FOR MONEY PRINCIPLE

1. The Best Value for Money Principle is an underlying principle which permeates the Financial Rules approved by Council and shall be given due consideration when exercising the procurement functions of ITTO.
2. When procuring goods or services or works all staff involved in procurement activities

must ensure that the optimal outcome has been achieved by considering all factors, such as relevant costs and benefits, risks and resources, etc., over the entirety of the product or service life-cycle.

3. Best Value for Money is defined as the “Optimization of whole-of -life costs and quality needed to meet the user’s requirements, while taking into consideration potential risk factors and resources available”. Its goal is to achieve maximum benefit for the Organization in order to execute the programmes, activities and projects approved by the Council.
4. Accordingly, price alone is not necessarily determinative of Best Value for Money. Procurement under the Best Value for Money principle shall be conducted taking the following factors:
 - a. **Cost-related factors:** The entirety of the cost components that comprise the Total Cost of Ownership (TCO) of the acquired goods, services or works, whether direct or indirect, fixed or variable (e.g., price, ancillary support, such as maintenance, upgrade and storage, supplies and additional operating costs, disposal costs, volume discounts, internal processing costs to support the transaction, etc.;
 - b. **Non-cost-related factors:** Factors or attributes that are related to the Organization’s needs and requirements (e.g., technical merits of the offered goods, services or works, compliance with Specifications, quality, timelines of delivery, competence, reliability and financial capacity of the Vendor, and compliance with contractual terms and conditions). Such factors should be included in the Specifications, TORs.
 - c. **Market environment:** Overall market maturity and availability of sources (e.g., Supplier availability, product availability, market maturity, Supplier sustainability). Such factors can be assessed using Market Research and commercial supply agencies.
 - d. **Competitive, fair, ethical and transparent sourcing** that is conducted consistently and in accordance with best practices and ITTO procurement standards, and within applicable laws.
 - e. **Risk factors:** Any risk that may jeopardize the successful outcome of a procurement and diminish the value that could have been obtained (e.g., financial viability and capacity of the Vendor, legal exposure and liability, geo-political circumstances, price stability, and dependency). All factors that are relevant to the particular procurement need to be considered, and the relative importance of each factor determined on a case by case basis.
5. As far as possible, all costs and benefits should be identified, compared and weighted against end-user need, evaluation criteria and risk factors. While Best Value for Money should be assessed as objectively as possible, professional judgement will be required, as complex needs rarely have one clearly correct solution.
6. The Best Value for Money principle is applicable throughout the acquisition process. The main stages within the process where it is applicable are:
 - a. Planning, funding and definition of requirements;
 - b. Identification of Vendors;
 - c. Development of Source Selection Plan, including Evaluation Criteria and

Weighting
