

# International Conference on Sustainable Mangrove Ecosystems: Managing a vital resource for achieving SDGs and Paris Agreement

18-21 April 2017, Bali, Indonesia

**Themes of the Conference include:**

- Promoting sustainable management of mangrove ecosystems
- Addressing climate change adaptation and mitigation
- Restoration of degraded mangrove forests and ecosystems
- Enhancing sustainable livelihoods of mangrove-dependent communities
- Strengthening good governance, law enforcement and monitoring systems

**Organizers:** International Tropical Timber Organization (ITTO), Ministry of Environment and Forestry of Indonesia and International Society for Mangrove Ecosystems (ISME)
