

ITTO-IPB-FFPRI event for COP 26

Prevention of forest fires in the tropics: lessons from Indonesia and elsewhere

Date: Thursday, 11 November 2021 at 16:40-18:00 Glasgow, UK (local time)
Hybrid event: INDONESIA PAVILION IN UNFCCC COP 26 and virtual access

This event will promote cooperation and synergies among stakeholders to support the effective implementation of the MoEF-ITTO forest fire project in South Sumatera and Central and South Kalimantan in Indonesia, as well as the SERFOR-ITTO forest fire project in Peru. It will increase networking and promote research and capacity building to prevent and combat forest fires in the tropics.
