- BWP 2025-2026
- Projects (2023-2026)

For 2022: Use the actual VCs pledged for activities and projects

Target cost estimates: 2023-26

Step 3: Agree on 4 basic assumptions for projecting cost estimates for 29 targets:

- Sec. will continue to rely on external expertise to assist on policy issues. Average consultancy = US\$25,000
- C&O materials & events will be key to promoting ITTO and its work
- Training workshops will help build producer capacity. Average workshop = US\$30,000
- Country projects will be key to operationalizing many targets. Average project cost = US\$250,000 (based on 2016-2020 data)

Target cost estimates: 2023-26 (Annex 1)

Summary of projected cost estimates for 2023-2026:

BWP 2023-24: US\$ 5.565 m

BWP 2025-26: US\$ 6.035 m

Projects 2023-26: US\$18,000 m

Subtotal: US\$ 29,600 m

Proposed indicative 5-yr resource
mobilization goal for
ITTO SAP 2022-2026:
US\$ 33 million

Draft Resource Mobilization Strategy (RMS) for ITTO SAP 2022-2026 = US\$ 33m

- SAP Target 26: “Adopt & operationalize a new ITTO financial architecture to include an RMS...”
- ITTC(LVIII)/6 Annex 2 – Contains concise draft RMS:
 - A. Introduction
 - B. Purpose
 - C. Objectives 1-3
 - D. Elements, actions, responsibilities, & funding source for Objectives 1-3

Draft RMS – A. Introduction

Sets out 3 principles:

- Mobilizing resources to support ITTO functions, activities & projects is crucial to making ITTO a more viable and effective organization
- ED and senior staff have an important role to play in mobilizing resources
- Combined efforts of ITTO Chair/Vice Chair and members are also essential to mobilizing resources, including through coordination in capitals and diplomatic approaches

Draft RMS – B. Purpose

- To mobilize financial and other resources to meet the “indicative 5-year resource mobilization goal” for VCs needed to accomplish the SAP 2022-2026 targets
- Based on target cost estimates 2023-26 and on VCs for 2022, we propose a goal of US\$33 million

Draft RMS – C. Objectives

1. Attract additional VCs contributions from a broad base of members to support ITTO functions, activities and projects
2. Leverage financing for ITTO project and policy activities through new and enhanced partnerships & joint initiatives with intergovernmental, non-governmental and private sector organizations

Concluding thoughts...5-year goal

- Target cost estimates for 2023-2026 are “best-guess” projections to fully implement the SAP
- The “indicative 5-year resource mobilization goal” should be ambitious but reflect what is possible.
- The draft RMS is a first for ITTO and key to implementing SAP 2022-26
- **Resource mobilization is a shared responsibility with members.**

Concluding thoughts...RMS

- Greatest potential for new resources could be through GEF/GCF accreditation. Members need to work with GEF/GCF FPs to help make this happen.
- **Members NEED to pay their assessed contribution towards the Admin Account – ESSENTIAL for ITTO effectiveness/DONOR CONFIDENCE & and a shared obligation.**

Thank you very much for your kind attention!
