on genetic  
resources

Convention on  
Biological Diversity

# Global Goals for 2050

## Goal A

Ecosystems are conserved, extinctions are halted and genetic diversity is maintained

## Goal B

Biodiversity is sustainably used and its contributions to people are maintained, enhanced or restored

## Goal C

Benefits from the use of genetic resources are shared and sustainably increased

## Goal D

The biodiversity funding gap of 700 billion USD is closed by ensuring adequate means of implementation are available.

UNITED NATIONS DECADE ON  
ECOSYSTEM  
RESTORATION  
2021-2030

UN  
environment  
programme

# Forest in the Global Biodiversity Framework

## Forest conservation

To bring the loss of areas of high biodiversity importance close to zero by 2030

Restoring at least 30% of degraded forests

Increase network of PA in forests

## Forest for livelihoods

Areas under forestry are managed sustainably  
Well-being and health  
Increase area, quality and accessibility of green spaces

## Drivers of forest loss

Enabling businesses to report on impact on biodiversity along supply and value chains and reduce them progressively.  
Enabling sustainable consumption choices  
Reforming harmful incentives and scaling up positive incentives

# Partnerships and Synergies

## Capacity building and education

- Enhance collaboration and synergies between CBD and other **conventions and international organizations and processes** including at the global, regional and national levels
- Invites **biodiversity-related conventions and other MEAs** to prepare thematic capacity building and development action plans for specific targets or groups of related targets
- Invites **universities and academia** to develop specialized courses and share new knowledge, and implement continuing education programmes to support the GBF with the full and effective participation of indigenous peoples and local communities, women and youth;

# Partnerships and Synergies

## Regional and subregional support network

Invites relevant organizations and **regional and subregional bodies**, including **regional economic integration organizations**, to promote the sharing of expertise and information; to strengthen existing regional and subregional support networks or establish new ones, and to provide, upon request, assistance to enable national and subnational government institutions, local authorities and non-government actors, including indigenous peoples and local communities, women and youth organizations,

# Partnerships and Synergies

## Technical and scientific cooperation

- Decides to establish an informal advisory group on technical and scientific cooperation
- Decides to establish a mechanism comprising a network of regional, and/or additional subregional technical and scientific cooperation support centres

## Monitoring framework

- Guidance on the development of regional and national monitoring systems and on the implementation of the monitoring framework, including on capacity-building and development to support its implementation

# “From Agreement to Action: Build Back Biodiversity”

## THANK YOU!
