# COMPLETION REPORT
# PROJECT PD 673/12 REV.1(F)

**"Strengthening the Capacity in Forest Law Enforcement and Governance of the Permanent Forest Estates in Kratie and Mondulkiri Provinces of Cambodia"**
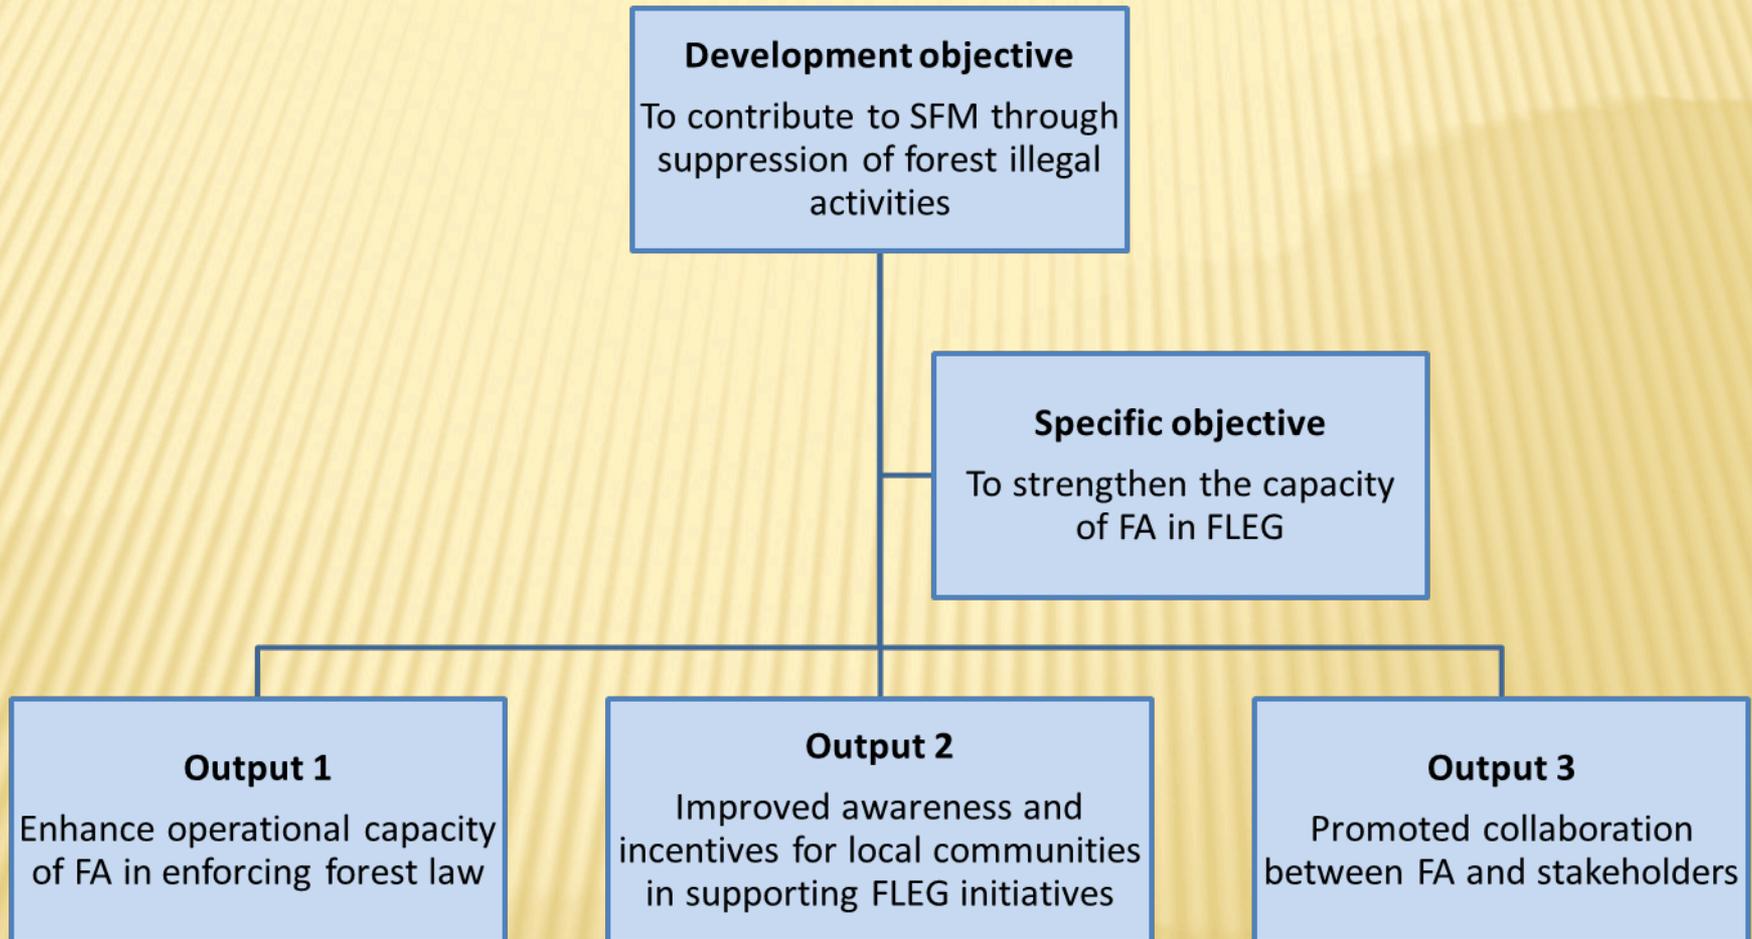

Prepared by: Eang Savet

07 November 2016, Yokohama, Japan

# BACKGROUND OF THE PROJECT

- The project was approved and financed in November 2012 at the 48th ITTC meeting in Yokohama, Japan. This project was financed by the governments of Japan and Republic of Korea through ITTO.

- The total budget was US$ 555,527, which included US$ 464,033 of ITTO contribution and US$ 91,494 of the Executive Agency in kind contribution.

- The project agreement was signed by the Royal Government of Cambodia and ITTO in January 2013.

- The project was initially planned for 36 months (May 2013-April 2016), a three-months extension (up to July 2016) without additional funding in order to complete execution of the project activities.

# PROJECT WORK BREAKDOWN STRUCTURE

**Development objective**

To contribute to SFM through suppression of forest illegal activities

**Specific objective**

To strengthen the capacity of FA in FLEG

**Output 1**

Enhance operational capacity of FA in enforcing forest law

**Output 2**

Improved awareness and incentives for local communities in supporting FLEG initiatives

**Output 3**

Promoted collaboration between FA and stakeholders

# PROJECT OUTCOMES

**Output 1:** The well functioning forest crime information system and updated technical guidelines for FLEG operations, procured operational equipment and facilities, FLEG website and project Facebook and disseminated 2013 Booklet on Forest Cover of Kratie and Mondulkiri provinces.

✖ **OUTPUT 2:** No less than 576 community leaders and members were involved in the different training on techniques relating to livelihood improvement and at least 608 community leaders and members have had their awareness on FLEG and SFM significantly improved.

- ✖ **Output 3:** Improved public awareness on FLEG and SFM through wide distribution of thousands of brochure, posters, calendars, comic book etc., enhanced operational capacity of FA in forestry extension operations through implementation of a sound forestry extension program by 58 FA newly trained as extension officers.

# CONCLUSIONS

- ✖ The project had been smoothly implemented and successfully achieved its defined outputs and specific objective due mainly to the sound project design, adoption of an appropriate strategy, adequacy of inputs in terms of manpower, funds and time, the generally strong support of the primary beneficiaries and employment of an able Project Monitoring Unit.

- ✖ The primary beneficiaries of the project had demonstrated strong support on project implementation

# THANK YOU VERY MUCH FOR YOUR ATTENTION
