POTENTIAL DISTRIBUTION OF ENVIRONMENTAL SERVICES IN PRODUCTION FORESTS

NEW TOUR DESTINATION IN PRODUCTION FORESTS

Tourism has a significant role in creating business opportunities and job creation

There are many potential tours in Production Forest that can be offered to investors to be developed into new tourist destinations

Already operational: Telunas Resort, Kepri employs 165 employees from the local community

The creation of a potential tourist destination profile will be completed soon

Technical guidance to local government has started

A number of investors are already interested (Kepri 12 investors, Mentawai 33 investors, NTT)

Investor assistance for the site design has begun

Fix the legality of destinations that are already in operation

DG SMPF BUDGET ALLOCATION (2017 – 2019)

Budget policy of DG SMPF from 2015-2017, improving the quality of forest management at the site level through KPHP and improving the welfare of village-based communities

CLUSTER DEVELOPMENT OF SMALL BUSINESS PROCESSING OF NTFP BASED ON KPHP MAJOR PRODUCTS

UTILIZATION AND MARKETING STRATEGIES

Efficient Utilization of NTFPs and ES in KPHP

Facilitation of NTFP and ES investment regulation

Priority Area Enhancement of NTFPs and ES

Selection of goods and services to be produced should be based on market potential

Products are produced in an efficient manner

Identification of production centers should consider accessibility

Competitive in term of price, quantity, quality and continuity

Continuous technical assistance from KPHP and professionals for local communities in the production and marketing process

MULTI-COMMODITY
